

Your chance to shine: The Defence STEM Undergraduate Scheme (DSUS)

We're thrilled to introduce an opportunity like no other—AWE's **Defence STEM Undergraduate Scheme**. This is your chance to elevate your university journey with a scholarship program designed to set you up for success.

Here's the deal:

- **Full tuition fee coverage** (up to £9,250/year).
- **A yearly bursary** (up to £5,000) to ease cost of living pressures.
- **Paid summer placements**—earn hands-on experience AND £23,500 pro rata.
- **Exclusive career prospects**—fast-track your application to a permanent graduate role with AWE.

At AWE, we understand the challenges students face, so we're here to give you the support you need to succeed academically and professionally.

Eligibility

If you're studying an **engineering discipline** (recognized by the Engineering Council), you're already on our radar. We're especially keen to hear from students in:

- Mechanical Engineering
- Electrical & Electronic Engineering
- Manufacturing & Production Engineering
- Nuclear Engineering

If you're studying a **science discipline**, we're especially keen to hear from students specialising in:

- Chemistry
- Materials Science
- Analytical Science
- Physics
- Maths
- Computer Science

Important: Applicants must be UK nationals with a UK passport (minimum 10 years living in the UK) and able to obtain security clearance.

What's next?

Applications open 6th May, please apply here: www.awe.co.uk/careers/early-careers/undergraduates/

Here's the journey:

1. **Submit your application** and complete online tests (with practice tests provided).
 2. **Complete a final stage interview.**
