**THALES**  
Building a future we can all trust

Last month, we proudly welcomed 185 new Graduates and Apprentices to Thales from across the UK. These talented individuals have joined us in a diverse range of roles, including; Systems Engineering, Manufacturing, Software Engineering, Test and Repair, End User Support, Service Desk, Finance, Contract Management, Bid and Project Management, Digital Analyst, Business Growth, and Procurement.

In their first week, our new Graduates and Apprentices gathered in Crawley to immerse themselves in all things Thales, explore their new roles, and build connections with one another. The week was filled with exciting activities, including inspiring talks from our CEO, HR Director, and current Graduates and Apprentices. They also took part in interactive marketplace sessions to better understand Thales, tackled the Build-A-Bike challenge to foster teamwork while supporting our incredible charity partners, and much more!

At Thales, we're committed to nurturing the next generation of innovators and leaders, offering unparalleled opportunities for development and growth in a dynamic, cutting-edge environment.
