

Dear Future Medic,

You have been identified as a student who is considering applying to study medicine, and we are inviting you to join our Aspiring Medics Programme. The programme is 18+ months of support, courses, advice and guidance to help maximise your medical school application. Everything you need to get into medical school.

All Aspire students will spend a full week with our NHS Doctors and medical students in London, taking part in advanced medical simulations and A&E scenarios. Students will gain all the hands-on experience they need to meet the medical school work experience requirements. Aspire students also gain access to our online courses that will help them score top entrance examination scores, write a winning personal statement and stand out during the medical school interviews.

The Aspiring Medics Programme:

- Medical residential week (accommodation and meals included)
- Teaching from NHS Doctors and Medical Students
- 1 x UCAT Crash Course
- 1 x UCAT Masterclass
- 1 x Ultimate BMAT Course (optional)
- 1 x Expert personal statement review
- 1 x Ultimate Interview Course
- Priority access to all Medical Project's webinars and talks
- 18+ months of support until you gain your place at medical school

Each year we admit just 150 students to our Aspire Programme so early registration is required. To check programme fees and availability, please see our website or scan the QR code below.

We look forward to supporting you on your journey to becoming a Doctor.

Kind regards,

Mark Williams
