

Take on the cyber security world

and earn while doing it!

Our Cyber Security teams are the ones responsible for fighting cyber attacks, dissecting digital threats and building our business defences. Join us as a **Cyber Security Apprentice** and you can join them in creating a safer online space, rotate between action packed teams and earn **£30,000** whilst doing it!

What's in it for you?

- A level 4 Cyber Security apprenticeship
- Support in developing your career
- A starting salary of £30,000

Plus, access to all of our employee benefits, including:

- 25 days' holiday
- 5 volunteering days a year
- Huge discounts on everything from days out to household bills

What we look for

At least 5 GCSEs, including English and Maths, at level 4-9. Other qualities we're interested in include:

- A passion and interest in Cyber Security
- Strong team working skills
- Ability to work well independently
- Problem solving skills
- Strong communication & relationship building skills
- Basic analytical skills
